ADVARIO TERMINALS JOINS SOHAR PORT AND FREEZONE NET-ZERO ALLIANCE

SOHAR Port and Freezone has announced the joining of Advario Terminals to the SOHAR Port and Freezone Net-Zero Alliance, which was established in November 2023 with the participation of 11 tenants. This alliance is in line with the Sultanate of Oman's efforts to achieve carbon neutrality by 2050.

In a collaborative effort, SOHAR Port and Freezone, along with industrial tenants including OQ, Vale Oman Pelletizing Company, Sohar Aluminium Company, Jindal Shadeed Iron & Steel, Al Tamman Indsil Ferrochrome LLC, Shinas Generating Company, Sohar International Urea & Chemical Industries, Al Batinah Power, and Air Liquide Sohar Industrial Gases, formally announced the formation of the SOHAR Net Zero Alliance in November 2023. This initiative aims to expedite Oman's transition towards a carbon-neutral future, with a strong emphasis on alternative and green energy sources, including green hydrogen.

To further support this initiative, SOHAR Port and Freezone will establish a dedicated external service facility for carbon capture, utilisation, and storage, equipped with all necessary facilities. This facility will play a crucial role in advancing the goals of the alliance and promoting sustainable practices within the SOHAR Port and Freezone.
